

Arts and complexity collective

Galen Hall, Max Jerdee, Bhaskar Kumawat, Sara Mesquita, Ritam Pal, Enock Appiah Tieku, and you??

Motivations

- Complexity science and simulation as a unique opportunity for...
 - Art
 - Education
 - Outreach
- A community to compile inspirations, ideas, and resources to use and produce art from complexity

Our website

- Built with quarto
- Use javascript for interactive elements and physical media
- (temporary) link:

maxjerdee.github.io/CSSS-arts

Check it out!

Home

About

Projects

Chaos sampler

Evolution on Fitness
landscapes

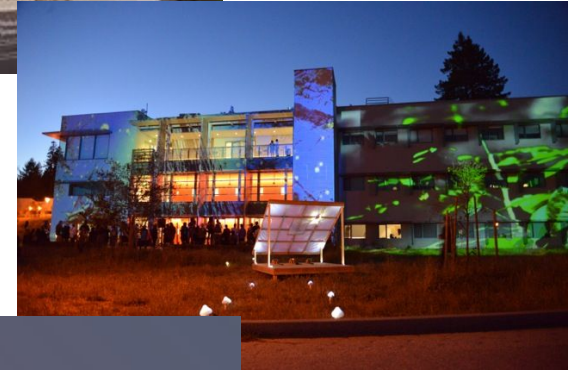

Bird flocking

Gallery of complexity

Game of life

Future plans

- Maintain a living portfolio
- Contribute to arts/science exhibits
 - University of Michigan Natural History Museum
 - UCSC Institute of Arts and Sciences
- Get funding (grant applications)
- Integrate interactive modules into some of SFI's Complexity Explorer courses

Join! Contribute!

- Can fill out this google form to contribute art and/or get involved with the project
- Planned zoom meetings to check in
